Skills

- Web design
- UX/UI design
- Narrative design
- Business management
- Basic 3D modeling
- Game design principles
- Basic accounting
- Social media marketing
- Marketing principles
- Business negotiation

Digital Narrative “InfoDump”

- Wrote and hand coded a digital narrative which uses JavaScript to actively respond to user inputs.
- Fool proofed code so that users must respond to queries before moving forward in the narrative.

Weather Forecast App

- Built a responsive weather forecast app formatted using CSS Grid.
- Makes use of an API that can give current weather or a five day forecast based on user input.
