Item 4: Advisory Business

Firm Description
Scarecrow Trading Inc. (“Advisor”) was founded in 2003 and began offering investment advisory services in 2014. Leonard C. Fox is 100% owner.

Types of Advisory Services
MARKET TIMING SIGNALS
Advisor has developed software technology which processes financial market data using proprietary mathematical algorithms and produces periodic instruction to take action regarding various securities or securities markets to unaffiliated Registered Investment Advisors under a license agreement.

Advisor will provide, upon execution of the license agreement, Signals to the unaffiliated Registered Investment Advisor (Licensee) via email on a daily basis. The Licensee is under no obligation to market or otherwise utilize the Signal(s) provided by Advisor and reserves the right to use or not use the Signal(s) if and when it deems appropriate or desirable in its sole discretion.

Client Tailored Services and Client Imposed Restrictions
Advisor does not solicit individual clients.

Agreements may not be assigned without written client consent.

Wrap Fee Programs
Advisor does not sponsor any wrap fee programs.

Client Assets under Management
Advisor does not manage client assets.

Item 5: Fees and Compensation

Method of Compensation and Fee Schedule
ADVISOR PLATFORM
Licensed unaffiliated Registered Investment Advisors using the platform will pay Advisor an annual fee not to exceed .50% based on the dollar value of all assets managed using the respective signals. These fees are payable to Advisor quarterly in advance or in arrears; depending upon who the unaffiliated Registered Investment Advisor charges clients, and are negotiable.

Client Payment of Fees
Fees are billed quarterly in advance, or arrears, meaning we bill either before or after the three monthly billing cycle. Fees are paid to Advisor by check or wire.

Additional Client Fees Charged
Custodians may charge transaction fees on purchases or sales of certain mutual funds, equities, and exchange-traded funds. These charges may include Mutual Fund transactions fees, postage and handling and miscellaneous fees (fee levied to recover costs associated
with fees assessed by self-regulatory organizations). These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

Advisor, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

For more details on the brokerage practices, see Item 12 of this brochure.

**Prepayment of Client Fees**
Advisor does not charge fees in advance of more than $500 per client and six months or more in advance.

**External Compensation for the Sale of Securities to Clients**
Advisor does not receive any external compensation for the sale of securities to clients, but investment advisor representatives of Advisor may receive compensation for the sale of securities as investment advisor representatives of unaffiliated advisory firms.

**Item 6: Performance-Based Fees and Side-by-Side Management**

**Sharing of Capital Gains**
Fees are not based on a share of the capital gains or capital appreciation of managed securities.

Advisor does not use a performance-based fee structure because of the conflict of interest. Performance based compensation may create an incentive for the advisor to recommend an investment that may carry a higher degree of risk to the client.

**Item 7: Types of Clients**

**Description**
Advisor provides investment advice to Registered Investment Advisory firms and investment companies.

Client relationships vary in scope and length of service.

**Account Minimums**
Advisor does not require a minimum to open an account.

**Item 8: Methods of Analysis, Investment Strategies and Risk of Loss**

**Methods of Analysis**
The Advisor uses Absolute Return strategy for market signals. All signals are designed for active management and are to be traded against Index based ETF's or Mutual Funds.
Investment Strategy
Absolute return investment techniques include using short selling, futures, options, derivatives, arbitrage, leverage and unconventional assets.

Security Specific Material Risks
All investment programs have certain risks that are borne by the investor. Fundamental analysis may involve interest rate risk, market risk, business risk, and financial risk. Risks involved in technical analysis are inflation risk, reinvestment risk, and market risk. Cyclical analysis involves inflation risk, market risk, and currency risk.

Our security analysis approach constantly keeps the risk of loss in mind. Investors face the following investment risks and should discuss these risks with Advisor:

- **Interest-rate Risk**: Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.

- **Market Risk**: The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security’s particular underlying circumstances. For example, political, economic and social conditions may trigger market events.

- **Inflation Risk**: When any type of inflation is present, a dollar today will buy more than a dollar next year, because purchasing power is eroding at the rate of inflation.

- **Currency Risk**: Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment’s originating country. This is also referred to as exchange rate risk.

- **Reinvestment Risk**: This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.

- **Business Risk**: These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.

- **Liquidity Risk**: Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.

- **Financial Risk**: Excessive borrowing to finance a business’ operations increases the risk of profitability, because the company must meet the terms of its
obligations in good times and bad. During periods of financial stress, the inability
to meet loan obligations may result in bankruptcy and/or a declining market value.

- **Option Risk**: The risk with option buying are the risk of losing your entire investment in a relatively short period time and losing your entire investment as the option goes out of the money and as expiration nears. The risk with option selling are options sold may be exercised at any time before expiration and forgoing the right to profit when the underlying stock rises above the strike price of the call option sold.

**Item 9: Disciplinary Information**

**Criminal or Civil Actions**
The firm and its management have not been involved in any criminal or civil action required to be reported.

**Administrative Enforcement Proceedings**
The firm and its management have not been involved in administrative enforcement proceedings required to be reported.

**Self-Regulatory Organization Enforcement Proceedings**
The firm and its management have not been involved in legal or disciplinary events related to past or present investment clients required to be reported.

**Item 10: Other Financial Industry Activities and Affiliations**

**Broker-Dealer or Representative Registration**
Advisor is not registered as a broker-dealer and no affiliated persons are registered representatives of a broker dealer.

**Futures or Commodity Registration**
Neither Advisor nor its employees are registered or has an application pending to register as a futures commission merchant, commodity pool operator, or a commodity trading advisor.

**Material Relationships Maintained by this Advisory Business and Conflicts of Interest**
President Leonard C. Fox is also an investment advisor representative of a registered investment advisor firm. More than 50% of Mr. Fox's time is spent in these business practices. From time to time, he will offer clients products and/or services from these activities.

Since Scarecrow Trading Inc. only offers trading signals to Registered Investment Advisors, there is no a conflict of interest.

Scarecrow Trading Inc.
President Leonard C. Fox is also Managing Partner of Numetrix Capital, LLP, a signal provider similar to Scarecrow Trading Inc. Less than 5% of his time is spent in this business.

**Recommendations or Selections of Other Investment Advisors and Conflicts of Interest**
Advisor does not recommend or select other investment advisors.

**Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

**Code of Ethics Description**
The employees of Advisor have committed to a Code of Ethics ("Code"). The purpose of our Code is to set forth standards of conduct expected of Advisor employees and addresses conflicts that may arise. The Code defines acceptable behavior for employees of Advisor. The Code reflects Advisor and its supervised persons' responsibility to act in the best interest of their client.

One area in which the Code addresses is when employees buy or sell securities for their personal accounts and how to mitigate any conflict of interest with our clients. We do not allow any employees to use non-public material information for their personal profit or to use internal research for their personal benefit in conflict with the benefit to our clients.

Advisor's policy prohibits any person from acting upon or otherwise misusing non-public or inside information. No advisory representative or other employee, officer or director of Advisor may recommend any transaction in a security or its derivative to advisory clients or engage in personal securities transactions for a security or its derivatives if the advisory representative possesses material, non-public information regarding the security.

Advisor's Code is based on the guiding principle that the interests of the client are our top priority. Advisor's officers, directors, advisors, and other employees have a fiduciary duty to our clients and must diligently perform that duty to maintain the complete trust and confidence of our clients. When a conflict arises, it is our obligation to put the client's interests over the interests of either employees or the company.

The Code applies to “access” persons. “Access” persons are employees who have access to non-public information regarding any clients' purchase or sale of securities, or non-public information regarding the portfolio holdings of any reportable fund, who are involved in making securities recommendations to clients, or who have access to such recommendations that are non-public.

The firm will provide a copy of the Code of Ethics to any client or prospective client upon request.

**Investment Recommendations Involving a Material Financial Interest and Conflict of Interest**
Advisor and its employees do not recommend to clients securities in which we have a material financial interest.
Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest
Advisor and its employees may buy or sell securities that are also held by clients. In order to mitigate conflicts of interest such as front running, employees are required to disclose all reportable securities transactions as well as provide Advisor with copies of their brokerage statements.

The Chief Compliance Officer of Advisor is Leonard C. Fox. He reviews all employee trades each month. The personal trading reviews helps mitigate that the personal trading of employees does not affect the markets and that clients of the firm have received preferential treatment over employee trades.

Client Securities Recommendations or Trades and Concurrent Advisory Firm Securities Transactions and Conflicts of Interest
Advisor does not maintain a firm proprietary trading account and does not have a material financial interest in any securities being recommended and therefore no conflicts of interest exist. However, employees may buy or sell securities at the same time they buy or sell securities for clients. In order to mitigate conflicts of interest such as front running, employees are required to disclose all reportable securities transactions as well as provide Advisor with copies of their brokerage statements.

Item 12: Brokerage Practices
Factors Used to Select Broker-Dealers for Client Transactions
Broker-Dealers selected for use by the Advisor are selected due to the availability of technology interfaces for automated trade execution, which is not generally available at other brokerages, and also for very low cost trade commissions, which are typically well below that of other brokerages available to Advisor. Clients pay for any and all custodial fees in addition to the advisory fee charged by Advisor.

- Directed Brokerage
  Advisor does not provide direct asset management and therefore does not take direction from clients as to what broker-dealer to use.

- Best Execution
  Investment advisors who manage or supervise client portfolios on a discretionary basis have a fiduciary obligation of best execution. Advisor does not exercise discretion of client accounts.

- Soft Dollar Arrangements
  Advisor does not maintain any soft dollar arrangements.

Aggregating Securities Transactions for Client Accounts
Advisor does not trade for its or its clients’ accounts and therefore aggregation of securities transactions is not applicable.
Item 13: Review of Accounts

Schedule for Periodic Review of Client Accounts or Financial Plans and Advisory Persons Involved
Advisor does not review client accounts.

Review of Client Accounts on Non-Periodic Basis
Advisor does not review client accounts.

Content of Client Provided Reports and Frequency
Advisor does not provide reports.

Item 14: Client Referrals and Other Compensation

Economic benefits Provided to the Advisory Firm from External Sources and Conflicts of Interest
Advisor does not receive any economic benefits from external sources.

Advisory Firm Payments for Client Referrals
Advisor does not compensate for client referrals.

Item 15: Custody

Account Statements
Advisor does not provide account statements.

Item 16: Investment Discretion

Discretionary Authority for Trading
Advisor does not accept discretionary authority to manage securities accounts on behalf of clients.

Item 17: Voting Client Securities

Proxy Votes
Advisor does not vote proxies on securities. Clients are expected to vote their own proxies. The client will receive their proxies directly from the custodian of their account or from a transfer agent.

When assistance on voting proxies is requested, Advisor will provide recommendations to the client. If a conflict of interest exists, it will be disclosed to the client.

Item 18: Financial Information

Balance Sheet
A balance sheet is not required to be provided because Advisor does not serve as a custodian for client funds or securities and Advisor does not require prepayment of fees of more than $500 per client and six months or more in advance.
Financial Conditions Reasonably Likely to Impair Advisory Firm’s Ability to Meet Commitments to Clients
Advisor has no condition that is reasonably likely to impair our ability to meet contractual commitments to our clients.

Bankruptcy Petitions during the Past Ten Years
No bankruptcy petitions to report.

**Item 19: Requirements for State Registered Advisors**
