Rossgriffus.com

EUGENE, OR

I am a highly passionate full stack web developer with a broad array of skills who is always willing to go the extra mile to make a project great. I am looking to join a team of other talented creatives building unique and elegant web-based solutions.

SKILLS

HTML5, CSS3, JavaScript, PHP, Laravel, Vue, MySQL, Redis, Linux (ubuntu), Docker, Git, Kubernetes, WordPress, Elementor, WooCommerce, Shopify, UX/UI, Adobe Suite, Figma

EXPERIENCE

August 2022 - Present

Growth Dynamics – Full Stack Developer

Contributed to and created a variety of digital projects, leveraging skills in web and app development in an agile workflow environment within the companies of Ability Inc. and Limelight Department. Provided ongoing maintenance and updates to products and admin dashboards. Constructed and maintained WordPress websites for an extensive client portfolio.

Accomplishments: rebuilt sso login functionality and app authorization, built and maintained automated billing systems, created stats usage tracking architecture handling thousands of requests per minute, product and admin dashboard UI improvements, built and contributed to custom WordPress plugins, 'Specht Properties' client WordPress site (<https://spechtprop.com/>), 'Oregoin Electric' client WordPress site (<https://oregoinelectric.com/>)

April 2021 - July 2022

Skeie's Jewelers – Webmaster/Web Developer

Designed, developed and tested layouts, features and functionality to ensure compatibility and usability across browsers and devices with a focus on aesthetics in Shopify's CMS environment. Employed search engine optimization practices to increase web visibility and engagement. Analyzed analytical data to better understand user intent and measure outcomes for ongoing optimization.

EDUCATION

December 2020 – Washington State University
Digital Technology & Culture (minor in Business Administration)
